After further argument the Judge denied the motion. The defense noted an exception.

Counsel for defense then filed a number of motions and pleas, which the Court overruled in bulk, and Colonel Totten asked to have the exception noted. The Court stated that there was no such thing as noting exceptions in criminal cases in the District, they could be recorded with other proceed-ings of the Court. Merrick stated that Judge Dorsey had not been ar-

REPUBLICAN SECRETARY.

The Chairman of the Republica Congressional Committee intends to call a meeting of that body to-morrow for the purpose of electing a Secretary. Col. D. B. Henderson, who was a chair-man of the Iowa delegation in the Chi-cago Convention, is a candidate.

Record-Union: The interior papers are agitating a subject, small in itself, that is of much importance—it is the matter of guide-foots on California roads. It is true, the stranger in nearly every county in this State, is sorely puzzled when traveling to find out about roads, where they lead, and the true distances. County Supervisors might well give attention to this matter, and, at a small coet, greatly oblige the general public.

THE FUTURE.

The very large immigration to us this year, added to the unprecedented number of tourists, is having a greater influence than anything else could possibly have to draw other thousands to us. As

the smeker of Chinese-made cigars is liable to the same infection. The toba co is handled by the perspiring hands of diseased Mongolians, and taken into the mouth of the smoker. And still the leprous Mongolians are patronized—unknowingly in many instances. Why are there no white coporative laundries established? There are hundreds of people who are complaining that there is no work for them to do. Here is an opening, and a profitable one.—Oakland Tribune.

The white laundries put on an air of business in their neat delivery wagons which are constantly upon the street taking orders.

The Main street gutters are in an odorous condition. The people on that street would like the Board of Health to remove the nuisance.

In is report to President Washington, Alexander Hamilton, the great apostle of American Freedom, uses the following language of and concerning the preamble above quoted:

"The idea of pursuing legal measures to obstruct the operation of a law needs little comment. Legal measures may be pursued to procure the repeal of a law, but to obstruct its operation presents a contradiction in terms. The operation or, what is the same thing, the

sonits a contrainction in terms. In eoperation or, what is the same thing, the execution of a law, cannot be obstructed tafter it has been constitutionally enacted, without illegality and crime. (Trials of the Western Insurgents, 1795, p. 107.)

What crime could the great Hamilton have meant when he used the above language. Did he mean conspiracy? Let us see:

"The crime of conspiracy according to its modern interpretation may be of two kinds, namely, conspiracies against the public, or such as endanger the public health, violate public meals, insult public justice, destroy the public peace, or affect public trade or business, or for the due administration of the laws."

—Buvier's Law Dic.

"To commit any act injurious to the public health, to public morals, or the perversion or obstruction of justice or due administration of the laws." Sec. 182, Subdiv. 5, Penal Code.

Alexander Hamilton in using the word crime must have meant treason, notwithstanding the preamblers referred to by him were afterwards indicted and some of them tried and found guilty of the crime of high treason.

WELL WHAT OF IT ?

The people enacted this Sunday law. The league of freedom organized to persist "in every legal measure that may obstruct the operation of the law." The press of California aid and abet the leagues. The courts and Judges are indifferent about it and submit to a well devised system of petifogging to delay, hinder and obstruct its execution; and last of all, the board of Supervisors join forces with the League of Preedom, and the poor, weak and imbecile State of California finds itself in the same fix that the United States did in the days of of Cattornia mass testi in the same at that the United States did in the days of the "Whiskey Rebellion," when Wash-ington sent an army of 13,000 men to bring "sundry inhabitants of western Pennsylvania" to a realization of their erime, to enforce the law, and bring to justice those who had organized to ob-struct the operation of the "whiskey excise law," and to vindicate the good

In the Court report in yesterday's Times in the matter of Keziah Hunter charged with being incompetent we stated that the jury returned a verdice of "mental incompetency," whereas we should have said "the jury returned a verdict of mental competency." The facts as we learn them are as follows:
A short time ago one of Mrs. Hunter's sons, Jesse Hunter, filed a petition alleging his mother to be incompetent from old age, loss of memory, etc., to manage her large estate, and asking for the appointment of a guardian. One son-in-law, J. H. Burke, and another son, Sam. Hunter, joined in supporting the petition. The rest of the family stoutly resisted this attempt to place a guardian over Mrs. Hunter. The matter was tried before Judge Howard and a jury, and occupied the attention of the Court for three days. The jury after a consultation of not more than five minutes rendered a unanimous verdict in favor of Mrs. Hunter's competency. As a matter of fact we understand that Mrs. Hunter is not only competent to take care of herself and her property, but for a woman of her years has remarkably shrewd business capacity. facts as we learn them are as follows

The members of the Gun and Rod Club quietly dropped in upon Mr. and Mrs. Kaiser last evening at their residence and gave them a surprise party in honor of their leaving for Los Angeles. THE SUCURIYE.

A very unpleasant account is given by a Brazilian paper of the proceedings of a huge water snake called "sucuruyu" which is to be found in some of the rivers of Brazil. An accident occurred the other day on the banks of the Rio Arassuahy, owing to the voracity of one of these reptiles. A slave, with some companions, was fishing with a net in the river, when he was suddenly seized by a sucuruyu, and in spite of his resistance, was dragged under the water in the presence of the horrified spectators. He never appeared again, and no doubt is entertained that he was swallowed by the sucuruyu, who made an effort with his hinder coils to carry off at the same time another of the fishing party. It is the exception for the sucuruyu to attack

BEAVER.

The idea that beavers have been all trapped out of the California rivers is incorrect, for there are a number of trappers who steadily ply their vocation in the steams and sloughs intersecting the junction of the Sacramento and San Joaquin rivers, who are successful in catching such numbers of beaver as to pay them well for their efforts. The flesh is fed to chickens or hogs and the fur sold in San Francisco.
